Gihan Hewage; Xiao Zhong

9th

GoCarbon Fibre 2018

Smithers Rapra have been organising the world renowned Global Outlook for Carbon Fibre conferences in both Europe and North America for over 20 years. As the only conference focused 100% on carbon fibre, the conferences provide a unique global forum for carbon fibre manufacturers, composite industry executives, technologists and new entrants to receive a comprehensive update on the outlook for growth, supply and demand and recycling of carbon fibres. Discussions at the conferences focus predominantly around end user applications, with insights from OEMs in aerospace, automotive, rail, sports equipment, marine, wind and more, alternative PAN and precursor applications, sustainable materials and methods, the role of recycling, novel approaches to composites manufacturing, new technologies for carbon fibre production, circular economy opportunities and much more. Smithers Rapra entice the leading global carbon fibre players to hear the latest thoughts from the leaders in the business, as well as what they see as the challenges for the future providing attendees with a unique, objective view on the carbon fibre market.

Berlin, Germany

Cecilia Gee (speaking)

31st

Asian Downstream Summit 2018

Asian Downstream Summit is the ONLY Digital Oil & Gas Conference & Exhibition in Asia that focuses on Innovation, Industry 4.0, Automation and Digital Transformation in Oil & Gas. It is the largest downstream exhibition in Asia whose sole purpose is to bring together key industry operators, start-ups, research centers and technology provides all under one roof over two full days to discuss strategies and best practices for optimizing efficiency and achieving operational excellence in refining, petrochemicals and chemicals. The two-day, dual streamed technical conference and exhibition is organized annually by World Refining Association (WRA) as part of the Singapore International Energy Week (SIEW) which is hosted by the Energy Market Authority of Singapore. The show aims to be the biggest event that helps downstream oil & gas players look into the future from a digital standpoint.

Singapore
