

## Meet Lux At Upcoming Industry Events

Page 1 of 5

### JANUARY

18th

#### #AIShowBiz

The world's first summit focused on the intersection of artificial intelligence and the entertainment industry that brings together trailblazing founders, funders, firms and futurists as they reveal trends and strategies to boost their bottom line. Attendees will have a rare opportunity to connect and collaborate at this summit with trailblazers from Paramount Pictures, Twentieth Century Fox Film, Warner Bros., IBM, Microsoft, Deloitte Digital, Hollywood Directors, a Doctor Who Bot, "synthetic being," private investors and many others.

Los Angeles, CA

#### DistribuTECH 2018

DistribuTECH is the leading annual electric power transmission and distribution conference & exhibition event. It addresses technologies used to move electricity from the power plant through the transmission and distribution systems to the meter and inside the home. Last year, DistribuTECH culminated with 13,500+ Individuals from 77 Countries, including qualified professionals from 326 Electric, Gas and Water Utilities as well as Renewable Generators. In short, the utility and renewable industries depend on DistribuTECH to learn and network.

San Antonio, TX  
January 23-25, 2018

Lux Attendees:  
Katrina Westerhof

#### Asia Adhesives and Sealants Markets

CMT invites you to attend the first Asia Adhesives & Sealants Markets conference this 23 – 24 January 2018 in Bangkok, Thailand. Hear from a carefully selected speakers-panel of key formulators and experts who share insights on markets, demand and chemistry. Key highlights include: Maximum networking benefits over 1.5 days, offering vital face-to-face interaction amongst Adhesives & Sealants formulators, end-users, distributors & raw materials suppliers from South East, South & North Asia, Asia's macro-economic trends & China's growth outlook, Regional adhesives & sealants market outlook, key driver for growth, challenges and trends moving forward, Keep track on Asia's construction activities & requirement for construction chemicals, Technology to improve food packaging & food safety, Innovation & applications of hot melt adhesives, Adapting to the growing trends for environmentally friendly packaging products in Asia, and Enhanced applications to meet VOC compliance and improved performance.

Bangkok, Thailand  
January 23-24, 2018

### FEBRUARY

13th

#### Cambridge Healthtech Institute's Healthcare IoT

The healthcare industry is at the advent of a digital evolution, spurred by a growing community of web-enabled products and services including the Cloud, smart and connected devices, and a more health-conscious and tech-savvy population. Sensor, medical device, fitness and wearable manufacturers, data analytics, cloud and data warehousing, cybersecurity and high-tech companies, hospitals and physician networks, health plans and payers, as well as regulatory and standards bodies are all excited with the potential that healthcare IoT brings, but are equally concerned about the challenges in privacy, cybersecurity, data interoperability, and patient engagement that come along with it. Cambridge Healthtech Institute's Inaugural Healthcare Internet of Things aims to bring together the different constituents and stakeholders within the value chain to participate in interactive discussion panels and deliver cases studies and pilot programs that showcase the healthcare industry's collaborative efforts toward the adoption and implementation of IoT.

San Francisco, CA  
February 13-14, 2018

Lux Attendees:  
Noa Ghersin (speaking)

21st

#### Smart Manufacturing Summit

A Unique Conference For Smart Manufacturing Senior Professionals, Innovators & Industry Leading Speakers to Discuss the Latest Manufacturing Cutting-Edge Innovations & Future Trends.

Stuttgart, Germany  
February 21-23, 2018

Lux Attendees:  
Mark Bunger (speaking)

28th

#### Battery Japan

World's Largest-scale international exhibition showcasing various components, materials, devices, finished rechargeable batteries for rechargeable battery R&D and manufacturing.

Tokyo, Japan  
February 28-Mar. 2, 2018

Lux Attendees:  
Christopher Robinson

### Conductive Plastics 2018

Electronics are playing an increasingly important part in everyday life. The rapid growth in connected devices, expanding IoT communications infrastructure, accelerating device miniaturization, and fast developing electric vehicle technologies are all driving demand for plastics that offer improved shielding, static management and thermal performance. Conductive Plastics is a high level two-day conference that will explore the design and manufacturing of electrically and/or thermally conductive plastic components and examine the latest additive technologies and compounding techniques. Expert speakers will address the challenges in formulating conductive compounds, as well as the critical influence of processing parameters on final part properties. The fourth in AMI's established international Conductive Plastics conference series, Conductive Plastics 2018 will be the essential meeting place for anyone working on the development and production of conductive compounds in North America, or those involved in the design and manufacture of products using such materials.

Pittsburgh, PA  
March 20-21, 2018

Lux Attendees:  
Xiao Zhong (speaking)

### IoT Asia 2018

Connecting YOU to Collaboration and Partnership Opportunities in Asia! For the past 4 years, IoT Asia has been at the forefront of bringing global collaboration and partnership opportunities to governments, businesses and communities in Asia. IoT Asia is an award winning stage that brings together technology heads, design architects, solution architects, engineers, academic institutions, investors and start-ups to assess the latest trends and partnership models in Asia. Featuring a 6,000 sqm exhibition, multi-track though provoking conferences and community-driven seminars, IoT Asia 2018 will put the spotlight on the following key areas critical to the development of IoT in Asia. What to Expect at IoT Asia 2018? 6000 + senior executives 500 + exhibitor products 140 + speakers 30 + networking & interactive hours 25 + seminars at TechSpace 1 multi-track conference 1 site tour IoT Asia has earned worldwide recognition through our successes at a wide range of global and local competitions as a widely acclaimed event in the industry. It was awarded: • UFI Marketing Award in 2016 • People's Choice Silver Awards for Event of the Year in Postscapes 2015/2016 IoT Awards • Trade Conference Organiser of the Year for IoT Asia 2014 at Singapore Experience Awards 2015 • The only Asian finalist for the Event of the Year category in Postscapes 2014/2015 Make a positive difference to your business. Join us at IoT Asia 2018 on 21 and 22 March. Register online now!

Singapore

22nd

### Smart Manufacturing Summit

This summit is designed as a 2-track event (Robotics&Automation and Manufacturing Excellence) to provide a platform for the key decision makers of the manufacturing industry. Summit expert-speakers will discuss new technologies, manufacturing automation, expansion of robotics and operational excellence in manufacturing. It will give a great chance to exchange knowledge and ideas on how the use of advances in manufacturing can increase productivity, improve quality and reduce costs and discuss current challenges and dynamics of this field. The purpose of the summit is to create a perfect atmosphere conducive to developing strategies for future success and achieving real results as well as active networking.

Barcelona, Spain  
March 22-23, 2018

Lux Attendees:  
Ruud Vermeulen (speaking)

28th

### Texas Open Innovation Conference

The Texas Open Innovation Conference is a forum where business, government and academia intersect to spark more development, collaboration and dialogue for the advancement of technology and ideas. The inaugural Texas Open Innovation Conference was a resounding success, with over 150 business and educational leaders converging to listen to fascinating presentations, make invaluable contacts and take real ideas back with them to implement at their organizations.

Houston, TX  
March 28-29, 2018

Lux Attendees:  
Harshit Sharma (speaking)

## APRIL

18th

### IoT Tech Expo Global 2018

The World's Largest IoT Event Series will bring together key industries from across the globe for 2 days of top level content and discussion. Introducing and exploring the latest innovations within the Internet of Things and covering Manufacturing, Transport, Health, Logistics, Government, Energy and Automotive, this conference is not to be missed.

London, England  
April 18-19, 2018

Lux Attendees:  
Alex Herceg (speaking)

23rd

### Rapid + TCT

At RAPID + TCT, you'll have the opportunity to engage with the most influential community in additive manufacturing. Explore the future of the industry through interactive experiences, hands-on exhibits, keynotes, and conference presentations from over 150 industry leaders. The level of cutting-edge 3D innovation at RAPID + TCT is unparalleled, as well as the breadth and depth of additive expertise across all industries. This is an extraordinary opportunity to experience the newest products, technologies, and materials in 3D printing, additive manufacturing, 3D scanning, CAD/CAE, metrology and inspection, and related technologies.

Fort Worth, Texas  
April 23-26, 2018

Lux Attendees:  
Xiao Zhong

## Meet Lux At Upcoming Industry Events

Page 5 of 5

### MAY

16th

#### Biosensors 2018

Emerging technological innovations enabled by next-generation sensors will define the landscape for the future commercialization of life changing medical devices. The exponential growth of the global sensors market and the demand for next-generation integrated systems is expected to reach \$18 billion by 2018. Low cost materials and advances in nano and micro fabrication techniques within the manufacturing process have led to significant increases in the commercialization of sensors for healthcare applications. Cambridge Healthtech Institute's Biosensors conference, which will take place at the Aloft Boston Seaport Hotel, will examine the latest advancements in research and integration and will provide attendees with state-of-the-art sensors development for medical applications.

Boston, MA  
May 16-17, 2018

Lux Attendees:  
Thomas Dawidczyk  
(speaking)

### JUNE

11th

#### WEAR 2018

WEAR 2018 will feature 3 days of tours and workshops, sessions and presentations around the latest updates on: Covering the gaps on standardization, technology and economy between fabrics and tech and how the two industries can find a common language, Sustainability: Tying Fabric and Tech Together, Consumer Fashion, Design, Power, Energy and Sensors, Athletics, and much more!

New York, NY  
June 11-13, 2018

Lux Attendees:  
Hirosei Kuruma; Joseph  
Sweeny
